

For Preceptors

Audiologists must be licensed and in good standing to be credentialed by health plans.

Licensure requirements vary from state to state.

Audiology Licensure Requirements...

Make Sure You're in the Know!

Preceptors supervising students are **NOT** required to be certified for licensure purposes, but should check certification requirements.

Benefits of Certification

- Many states will streamline the licensure process if the applicant is certified.
- Many states accept *ABA Certified (ABAC)* as the highest standard of practice.
