

Suggested Timeline for 12-Month AuD Externships

Introduction

With a growing number of fourth year externs needing placements in their final year, many clinical programs across the nation are receiving year-round inquiries from universities and students. At the request of clinical program directors and in an effort to bring greater uniformity to the application and selection process, the following timeline was suggested by the Academy's Clinical Education Subcommittee in 2006. The timeline will not be ideally suited for every university and every clinical setting; however, movement toward greater uniformity in application and placement should result in a more timely and efficient process, beneficial to students, university programs and clinical sites.
